

## EDITORIAL

In a recent speech before the Associated Press, Secretary of the Interior Ickes devoted his principal emphasis to a discussion of freedom of the press, of speech and of assemblage. He held that any effort to circumscribe them would be extremely dangerous, and said: "Any attempted legal restraint, however wisely applied, would be far worse than excesses of free expression, even though the freedom exercised bordered on license. Too much freedom is better than even a little restraint imposed from the outside, because excesses, if indulged in, will in the end either cure themselves or kill themselves."

That statement is of exceptional importance, for two reasons: First, it comes from a high government official, who has himself been subjected to a great deal of criticism. And second, it comes at a time when other and lesser officials are showing themselves to be exceedingly thin-skinned in the face of any criticism, no matter how constructive, of their work or their ideas, and are obviously eager to effect censorship of dissenting voices.

## Former Congresswoman Supports Townsend Plan

WASHINGTON, D. C. — Jeanette Rankin has the distinction of being the first Congresswoman and first ex-Congresswoman. Who, by the way, remembers the name of the state that sent her to Washington? She has the distinction of being one of the most charming persons "on the hill." In her labors as a promoter of peace she is making great inroads into the ranks of armament manufacturers. Miss Rankin is perhaps one of Dr. Townsend's most staunch admirers, one of the strongest supporters of the Townsend Plan. As a member of Congress she made a careful study of relief measures and social service legislation, and pronounces the Townsend Plan the best, by far, of them all; the one Plan that carries no stigma and no humiliation. The word "charity" does not appear in the background of the Townsend picture. It is a relief agency, not a relief measure.

### Joyful, Careful Spending

"What a joy those over 60 would reap in spending \$200 a month," said Miss Rankin. "There would be the joy of careful spending, for they would have reached the age of wisdom and discretion."

Miss Rankin excused herself to talk to a senator, but very soon returned with her smile in full bloom.

"The Townsend Plan would rob the man and woman of age of all fear. No longer would there be need for grasping, grabbing, stealing, lying, pulling down and trampling other human atoms in the fight for life."

"The Townsend Plan is the one relief agency without humiliation. Those who receive benefits will know they 'paid as they went along.' They would be in a category with those who buy an annuity. They would know, and feel, they were simply getting their due."

"More than an old age pension, the Townsend Plan would be a means of creating a consuming public. They say it would cost the Government \$24,000,000,000 a year to operate the Townsend Plan. We would gladly pay \$21,000,000,000 for a foreign market that would pro-

duce half the business the Townsend Plan in operation would produce.

"If each person over 60 were interested in one child, one grandchild, and if it is true there are 9,000,000 who would come under the Plan, just how many pairs of shoes would be bought each month out of this money? How many shoe factories would start up to supply this demand? How many hats? How many pairs of hose? How many dresses? How many suits of clothes? How many bushels of potatoes? How many heads of lettuce? How many carloads of oranges and lemons? How many little silk things? How many automobiles? How many gallons of gasoline? How many of everything would be bought with this money? And how many new factories would start up? And old factories reopen? How many farms would become active? And oil wells? And oil lines? How many thousands of men would be added to the automobile factory payrolls?"

### Turnover Comparison

"Then, how many new homes would be built, and how many old homes repaired? How many toys, safety razors, soap—everything." They say the Townsend Plan would cost \$2,000,000,000 a month. Well, wouldn't the \$2,000,000,000 go back into trade the very month it is paid out? So, while a total of \$24,000,000,000 would be going into the Plan each year, the \$21,000,000,000 would be the \$2,000,000,000 multiplied by 12, the 12 monthly turnovers. Two businesses may do a business of \$120,000 a year, one on a yearly turnover, the other having a monthly turnover. The one with the monthly turnover would be the one that would make money, because this one stock would cost \$10,000 investment, while the many with the annual turnover would have \$120,000 in stock. The smart merchant, the one who makes the money, is the one who has the most 'turnovers' in the course of a year. The more turnovers the better. Isn't that right?"

### Feasible, Practical

"The Townsend Plan is a genuine 'share-our-wealth' plan; feasible,

practical. I think of it by day, and dream of it at night. I am looking forward to meeting Dr. and Mrs. Townsend. I want to tell them face to face what wonderful people I think they are, and how wonderfully well they are doing in their campaign."

The pleasure Miss Rankin is anticipating, in meeting Dr. and Mrs. Townsend, is coming to pass. As soon as Dr. Townsend has a few minutes' breathing space, after returning from his next speaking tour, he is going to mark Miss Rankin's name at the top of his calendar.

### MOUNTAIN DRIVERS' TEN COMMANDMENTS

Driving in the mountains requires extra caution, states the public safety department of the National Automobile Club. Motorists might well remember the following points:

Be courteous and thoughtful. A mountain road is no place for "flashy" driving.

Keep to the right—especially on blind curves. Use your horn; but above all, use your head.

Use second gear in descending steep grades. Never, under any circumstances throw the car into neutral for coasting purposes. Such a practice is not only dangerous—it is unlawful.

Remember that loose gravel or sand is as dangerous a cause of skidding as is a wet pavement.

Remember that brakes do not function as perfectly on a washboard surface as they do on smooth pavement.

The power developed by your engine decreases as you gain altitude. If doubtful of your shifting ability, shift at the bottom of the grade.

Remember—25 miles in the mountains may be the equal of 100 miles on the level insofar as gas and oil mileage is concerned. Judge your supply accordingly.

Horse-drawn vehicles have the right of way at all times. The car ascending the grade has the right of way over one descending.

A steady pace allows one to cover greater mileage with less wear and tear to the car.

If you are not sure of your ability to drive in the mountains, don't tackle the job. Fear is the cause of the majority of mountain road accidents.

## Carmel Townsend Club Membership Passes 150

new Townsend club. This generous offer was readily accepted, and a committee was appointed to arrange to give the party near the end of May.

Forty-three Carmelites were received into the Townsend Club at its weekly meeting in Sunset school Monday night. This brings the total membership up to 150, which with the club but one week old, is looked upon as an excellent showing. The members all manifested a lively interest and declared that they were in the fight to win, regardless of the opposition of the present administration.

A communication from the Pacific Grove Townsend club was read. It invited Carmel people to attend a big meeting in the High School auditorium of that city tomorrow (Wednesday) night, when Mrs. Jack will speak on the Townsend plan of revolving old age pensions.

Fred Robbins, chairman of the entertainment committee reported that the Manzanita club had offered to give a card party in the

club building for the benefit of the offer was readily accepted, and a committee was appointed to arrange to give the party near the end of May.

Notice was read by the secretary of a big convention of Townsend clubs at the Big Trees on May 26. Plans are being laid for an attendance of 25,000 or more, since all the clubs of Central California will be represented.

The Monday night meeting was held in the art room of the school but the attendance overtaxed the capacity, and the meeting place will be changed back to the lunch room in the north end of the school building if that can be arranged for the next meeting.

A radio installed for the occasion by courtesy of the Carmel Hardware company gave all present the opportunity to listen to a stirring speech on the progress of the Townsend movement.

es Helen and Harriet Pierce in Carmel.

Those playing were Mrs. Charles Brand, Mrs. Samuel Barling and her sister, Mrs. Scott; Mrs. Harry Nease Taylor, Mrs. Howard Marshall, Mrs. Jacob Kreps, Mrs. Grigsby, Mrs. Isabel Winslow, Miss Mary Wyman, Mrs. M. J. Smith, Mrs. A. McDow, Mrs. Chidester, Mrs. Clara Beller, Mrs. John A. Gray and Miss Walters.

## Mrs. Taylor P. E. O. Delegate

Mrs. E. L. Taylor of Carmel will depart in the morning for Sacramento to attend the annual state convention of the P. E. O., which will be in session from Thursday to Saturday inclusive. Besides the regular session there will be a reception at Governor Merriam's mansion, a banquet at the Elks club and a boat ride on the river for the entertainment of the visitors, who will number several hundred. Mrs. Taylor will represent Chapter H. T., of Pacific Grove, of which she is president this year.

### BIG SUR ROAD SLIDE REMOVED; ROAD IS GOOD

The slide south of Bixby creek on the Big Sur road has been removed, reports the touring bureau of the California State Automobile Association. This route offers pavement from Monterey to San Ramon divide and excellent oiled road to Molera ranch. Beyond to Big Sur conditions are rather dusty and there is some rough road in places, as well as occasional small slides which make careful driving necessary. Drifting sand is encountered a short distance beyond Big Sur bridge. The road from Big Sur for 13 miles south to Anderson's Landing is in fair shape, but is subject to slides as a result of recent rains. Travel is entirely blocked beyond Anderson's Landing.

### CHURCH BENEFITED BY CARD PARTY

For the benefit of Carmel Community church, another informal card party was held on Thursday afternoon, at the home of the Miss-

## Editorial

(Continued from Page 1)

Free speech, free assemblage, and freedom of the press are the most important cornerstones of democratic government. The best friend dictatorship has is the power to forbid, to censor, to demand that a certain thing be said—and nothing more or less. A thousand commentators have written of the pitiful press of such countries as Germany, Russia and Italy, where each

newspaper is regarded as the personal organ of the dictator of the moment—and where an erring editor is disciplined with fines, imprisonment, exile.

Mr. Ickes brought out still another fine point in his speech, when he said: "Free economic enterprise, free political institutions, and the free speech of which the free press is a part, are one and inseparable. Ordinary man is not so constituted that he can think or speak for himself when he is hopelessly dependent for his daily bread upon the tyranny of a super-industry, or the tyranny of a super-state."

The secretary of the interior is to be praised for speaking so forcefully and so frankly on one of the burning issues of the time.

### MISSING—\$2,000,000 IN TAXES

The Los Angeles Times recently carried an interesting commentary on the subject of private versus public power utilities.

Los Angeles is now served by two systems, one municipally-owned, the other privately owned. Each charges exactly the same rates.

The private utility, which has approximately one-third of the electric business of the city, pays about \$1,173,000 a year in federal, state and local taxes.

The publicly-owned utility, doing twice as much business as its private competitor, pays no taxes.

Result: If the publicly-owned utility were taxed on the same basis as the private utility, it would pay into public treasuries the neat sum of \$2,346,000 a year.

The Los Angeles public power system is often pointed to as a successful example of municipal ownership. It should be doing well—when its expenses are so much less than a comparable private company, and its charges are the same!

### WHO WANTS MONEY?

Social Credit group of Carmel met in Sunset School last Thursday. The discussion developed that it is becoming increasingly clear to the mass of the people that their biggest problem today is lack of money. They realize that there is something dead wrong with the money system which has brought every civilized nation to the absurd situation of living in poverty while surrounded by abundance.

America is enormously rich in real wealth (goods and services); all that is needed is to adjust our money or ticket system so that Uncle Sam's children may live with ample food, shelter, dental and medical care, etc. Social Credit shows how this thing, which everyone wants, can be accomplished. "Taxation" will be discussed 8 p. m., Thursday, May 16.

### FIRST CHURCH OF CHRIST, SCIENTIST.

11 a. m. Sunday Services.  
8:00 p. m. Wednesday, meeting.

Reading room in church edifice open afternoons, 2 to 5.

Evenings: Tuesday and Friday, 7:30 to 9.

Closed holidays.

Monte Verde Street, One block North of Ocean Avenue.

9:30 a. m. Sunday School. "Mortals and Immortals" will be the subject of the Lesson-Sermon Sunday, May 19, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "In the way of righteousness is life; and in the pathway thereof there is no death" (Proverbs 12: 28). Other Bible citations will include: "Then said Jesus to those Jews which believed on him, If ye continue in my word, then are ye my disciples indeed; And ye shall know the truth, and the truth shall make you free . . . Verily, verily, I say unto you, If a man keep my saying, he shall never see death" (John 8: 31, 32, 51).

The Lesson-Sermon will also include the following passages from the Christian Science textbook, "Science and Health with Key to

the Scriptures" by Mary Baker Eddy: "Man in the likeness of God as revealed in Science cannot help being immortal . . . In Science, man's immortality depends upon that of God, good, and follows as a necessary consequence of the immortality of good" (p. 81).

### Personal Mention

Mr. and Mrs. J. W. Fitzgerald of Salinas have established a summer home in Carmel.

George O'Neill, a sojourner in Carmel for the past several months, left on Wednesday of last week for his home in New York.

Miss Ruth Inglis is in Los Angeles this week visiting with friends. She expects to return Wednesday.

Mr. and Mrs. W. H. Lisle have joined the colony of Fresno people who will spend the summer in Carmel.

The Smith cottage on Lincoln street has been leased for the summer season by Mr. and Mrs. Arthur S. Dudley of Sacramento. The Dudleys will arrive about June 1. Mr. Dudley is president of the Sacramento Chamber of Commerce. His business will take him to Washington, D. C., for a considerable portion of the summer.

Miss Betty Setchel, daughter of Mr. W. F. Setchel of Carmel, visited friends in San Francisco over the week-end.

### Carmel Valley

Mrs. Bill Silva of Salinas spent several days last week visiting at the home of Mr. and Mrs. Leo Vasquez.

Miss Lena Salvano and her mother motored to San Francisco last week on business. They returned home the latter part of the week.

Mrs. M. B. Mason and family had as their house guest for several days, Mr. Everett Walling of Salinas.

Guests at Robles del Rio during the past week were Mrs. E. B. Finch of Deerfield, Mass., Mr. and Mrs. Erastus Hopkins of Carmel, A. E. Halle of Carmel, Bud and Nadine Fox of Carmel, Helen Morrow of Palo Alto, Mr. and Mrs. F. F. McBride of Berkeley, Simon Rosenblatt of Carmel and Esther Rosenblatt of Salt Lake City, Utah.

Miss Beatrice Winder of Berkeley was the week-end guest of Mr. and Mrs. Roy Martin. Also spending the week-end with them was their son Jack, of Berkeley.

The Carmelo Home department met Tuesday afternoon, May 7, at the topic under discussion was the the home of Mrs. Andrew Stewart. care of milk.

by

MRS.  
MAX JOSEPH  
of

1140 High Street  
Auburn, Calif.

HERE IS A HOME in which electricity is put to many extra uses. Each month throughout 1935, Bargain Price Electricity will return a substantial discount to cut down the Joseph household budget.

Mrs. Joseph has the right idea. She says:

"Your Half-Off electricity plan has certainly been a saving to me the last few months. My house is heated entirely by electricity and is equipped with electric range and water heater, in fact with every electric convenience.

"Since you have made this new rate I have been able to enjoy the convenience and comfort which only electricity can furnish at a much lower cost than formerly. The plan has benefited me with a saving that totals as much as \$4.38 per month."

### NOW 238,346 ARE SAVING MONEY THIS WAY

1/2 OFF EXTRA Electricity means: When your electric bill in any month of 1935 is greater than your bill for the corresponding month of 1934, at same location, YOU GET A 50% DISCOUNT ON THE DIFFERENCE.
